5. 3. One of the roles of the Master Plan process will be to help identify a big picture “vision” or ideas about what the community should be like in the future. For example: What types of services will be needed to serve existing and future residents? What types of homes will residents live in? What types of recreational activities will be available? Our directions today shape the kind of place Riverton will become in the future. What are your ideas for Riverton's future?
